Lab 3: A Regression Study of COVID-19

Peer Feedback for the regression model created by:
    Adam Sayre, Brodric Cormier, Sanjay Elangovan

Feedback provided by:
    Eric Lundy, Gabriel Ohaike, Javed Roshan

Introduction

Introduction is comprehensive. The research question has been clearly stated as well.

Model Building

Three Models

We recommend our peer team to consider using both original variables and their interaction variables in the suggested improvements v1 and v2.

CLM Assumptions Assessment

Omitted Variables

Conclusion
